## HISTORY is commemorating the 75th anniversary of the liberation of Auschwitz with a new two-hour documentary, "Auschwitz Untold"

The documentary depicts the chilling story of the Nazi persecution and extermination of European Jews by combining newly colorized footage from the Holocaust and rare, first person interviews with survivors.

Seventy-five years after the liberation, survivors, who were children at the time of the Holocaust, reflect on the tragic circumstances that lead to their internment and reveal the ways in which they survived the brutal Nazi campaign.

"**Auschwitz Untold**" features moving and revealing testimony of more than 15 Holocaust survivors including the seldom heard voice of a Romani survivor and a member of the Jewish underground who participated in armed resistance against the Nazis. Viewers will witness colorization of black and white archive footage and a contemporary resonance to the unprecedented horrors of the not so distant past. Ultimately, a story of incredible courage, faith, and resilience emerges from the darkness of this horrific chapter in history.
